

# Sixteen02 Global Equities UCITS Fund

## Global Long Only

July 2021

### Performance

The Sixteen02 Global Equities UCITS Fund returned 2.5% for the month of July (USD Institutional Class).

### Investment Objective & Strategy

Sixteen02 Global Equities UCITS Fund ("the Fund") looks at investing in companies that can attractively compound capital over 3-5 years. We believe that very few asset classes have the superior reinvestment and compounding capability that equities offer. This along with their unique upside / downside character make it a compelling asset class to devote our time and energy on.

To achieve this the Investment Manager firstly adopts a set criteria to screen potential securities from the universe of all publicly listed companies. The quantitative criteria have been developed by the Investment Manager through an extensive period of investing in the markets and the screening process focuses on:

- Proven revenue growth and potential to grow ahead of the market
- Stable/growing profit margin
- Strong balance sheet
- Focus on "Return on Equity" (a measure of the profitability of a business in relation to shareholder's equity)

The Investment Manager assembles a concentrated high conviction portfolio of 18 to 30 companies.
